### 4. Spread Information

Spread is the difference between the bid (sell) and ask (buy) price. The difference is presented in pips and reflects the cost of opening a position and vary depending on the instrument. You will be able to find the value of a pip across all of our instruments, by accessing the Trading Platform through your account with the Company.

### 5. Swap Fees

Swap is the interest added or deducted from the value of your position and is only charged when a position is held open overnight. The operation is conducted at 00:00 (GMT+2 DST off) and the resulting amount is automatically converted into your Balance Currency.

The swap rate is calculated once for each day of the week that a position is rolled over with the exception of Wednesday, when it is charged 3 times to capture the weekend swap charged in advance (i.e. 7 swaps in 5 trading days). You will be able to find the value of the swap rate charged for each instrument by accessing the Trading Platform through your account. Rates may change quickly due to market conditions (changes in interest rates, volatility, liquidity etc.) and due to various risk related matters that are at Company's sole discretion.
